

AMISHA KUMARI

SOFTWARE DEVELOPMENT ENGINEER (SDE) ASPIRANT

Java | Data Structures & Algorithms | Full Stack Development

+91 8873252836 | amishakumaripatna123@gmail.com | [LinkedIn](#) | [Github](#) | Ajmer, Rajasthan, India

EDUCATION

Government Mahila Engineering College, Ajmer, Rajasthan
Bachelor of Technology in Computer Science & Engineering

August 2023 – Present
CGPA: 8.6/10

EXPERIENCE

Software Development Intern-Web2Ease Private Limited
Tech Stack: Full-stack development

June 2025 – July 2025

- Worked on front-end and backend modules using HTML, CSS, JavaScript, and Node.js; improved debugging and API integration skills during a software development internship.
- Integrated APIs and improved debugging efficiency.
- Gained hands-on experience in full-stack development workflow; Collaborated in a real-world development environment

PROJECTS

Healthcare AI Chatbot (End-to-End Q/A System)

Nov 2025 - Jan 2026

Tech Stack: Python, NLP, OpenAI API / LLMs, Flask/FastAPI, HTML, CSS, JavaScript

- Developed an AI-powered healthcare chatbot capable of answering medical-related queries using NLP techniques.
- Built an end-to-end question-answering system with LLM/API integration for contextual responses.
- Designed a responsive web interface for real-time user interaction with chatbot system.
- Implemented prompt engineering and response filtering to ensure safe and relevant answers.
- Enabled automated 24/7 query handling, improving accessibility for basic health information.

Full-Stack Task Management System

June 2025 – August 2025

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT

- Developed a full-stack task management web application supporting multiple users.
- Implemented JWT-based authentication for secure login and session handling.
- Designed RESTful APIs to perform CRUD operations, efficiently handling over 1000 task records.
- Optimised backend queries to achieve an API response time of less than 300 ms.
- Improved task tracking efficiency by approximately 40% through structured UI and backend logic, and deployed frontend on Vercel and backend on Render

JavaScript Project

Feb 2023 – May 2023

Tech Stack: HTML, CSS, JavaScript, REST APIS

- Built **Translator and Google Translate Clone** using REST APIs
- Developed **interactive applications** including Calculator and Analog Clock using DOM manipulation
- Implemented **responsive design** for seamless cross-device compatibility
- Strengthened core concepts of **JavaScript, API integration, and UI development**

TECHNICAL SKILLS

- Programming Languages:** Java (DSA), Python, CC Programming
- Frontend:** HTML5, CSS3, JavaScript (ES6), React.js, Bootstrap
- Database technologies:** MongoDB, MySQL
- Machine Learning:** Scikit-Learn, Pandas, NumPy
- Tools:** Git, GitHub, VS Code
- Concepts:** OOPs, DBMS, OS(Basics), API Integration, Debugging

ACHIEVEMENTS

- Qualified Internal Round of **Smart India Hackathon (SIH) 2024** for developing an ML-based prediction system
- Achieved **Top 8% rank in AlgoUniversity Technology Fellowship (ATF 2025)** among 250,000+ participants nationwide
- Ranked **Top 4 on GeeksforGeeks (College Level)** with 100+ DSA problems solved
- Served as **Event Lead for CodeCafe (College Level)**, managing and coordinating technical event activities
